ABOUT ME

Passionate Front-End Developer with expertise in HTML, CSS, and JavaScript. I excel at translating design concepts into seamless user interfaces and delivering high-quality code. I am dedicated to optimizing web performance for fast loading times and smooth navigation.

WORK EXPERIENCE

Front-End Developer

June 2023 - Present

Besides these issues, it is also important to manage the interns, to explain to them tools such as cPanel and DataLifeEngine, and to guide the interns. In addition, as a web developer, it is also necessary to take part in many projects and provide technical support for these projects. Being directly involved in at least 4 projects, including 1 big project, and providing technical support for more than 10 projects is important to be a successful web developer.

Projects: slsgroup.az, unicons.az, connect.az, safanagroup.az, palitro.az (as palitro.whm.az now)

Front-End Developer internship

December 2022 - March 2023

The issues discussed in this note are very important and require detailed explanation.

Learning Cpanel management is very important for the management of websites. Cpanel is used as a web server administration panel and is used to perform operations such as hosting and updating websites, managing e-mail accounts. By using Cpanel, you can improve the performance of your website, manage database settings and upload files.

EDUCATION

Industrial Engineer

2021 - Present

Div Academy

2022 May - 2022 October
